V International Conference

«SUSTAINABILITY AND LEGACY IN SPORT:
CHALLENGES AND PERSPECTIVES»

PROGRAM

November 29-30, 2021
Kyiv, Ukraine

GREETINGS

from Acting Minister of Ukraine on Education and Science

I sincerely welcome the participants and guests of the V International Conference “Sustainability and Legacy in Sport: Challenges and Perspectives”, which is held at the National University of Ukraine on Physical Education and Sport.

Due to quarantine restrictions caused by the COVID-19 pandemic, the traditional annual forum will be held online for the second time. However, this will not prevent experts from different countries to discuss current issues in many areas of sports, physical activity and physical education, focusing on effective mechanisms for implementing their research findings in practice as well as in educational process.

I wish the participants of this international forum a fruitful exchange of experience based on the research results. I hope that despite all the current limitations, creative traditions established during the previous international conferences in Kyiv will not fade away, but will be preserved and will gain new impetus for further development.

Serhii SHKARLET

GREETINGS

from Minister of Youth and Sport of Ukraine

I sincerely welcome the highly regarded meeting of scientists on the beginning of the V International Conference “Sustainability and Legacy in Sport: Challenges and Perspectives”, which is hospitably received by the National University of Ukraine on Physical Education and Sport.

Despite the COVID-19 pandemic, sport has once again proven to be a critical factor in global efforts to develop modern society. In the long run, restrictions on sports can have a negative impact on people’s health around the world. Therefore, given the challenges of today, it is very important to look for ways for overcoming difficulties through pooling knowledge and joint effort, as well as exchange of experience among professionals and countries.

Rapid development of modern sports dictates the need for adequate scientific support, consolidation of potential by authorities, research institutions and organizations, finding systemic and professional solutions for the development of innovative technologies that would provide qualitative changes in understanding the importance of physical culture and sports for human health as well as for gaining the highest awards at international competitions.

I wish the participants of the scientific conference to have fruitful discussion, to exchange their scientific achievements and go on for further research in sports science.

Vadym HUTSAIT

GREETINGS

From President of National Olympic Committee of Ukraine

On behalf of the Olympic Family of Ukraine, let me sincerely congratulate the participants and organizers of the V International Conference "Sustainability and Legacy in Sport: Challenges and Perspectives" on this important event.

I am convinced that the future of our sport, the health of our nation and the upbringing of the younger generation in the spirit of Olympic values depend on successful research and elaboration, finding new ways to improve sports methodology, because Ukraine always takes an active position in the development of sports science and education.

Without any doubt, holding a scientific forum, designed to address many pressing issues of sports science, is extremely important and its results will form new ideas and views, initiatives and proposals for further progress.

For its part, the National Olympic Committee of Ukraine also continues to pay great attention to scientific, educational and social projects and to educate the younger generation on the principles and values of Olympism.

I sincerely wish the Conference participants productive discussion, constructive solutions, new ideas and creative inspiration!

Sergey BUBKA

GREETINGS

From President of European University Sports Association

On behalf of the European Student Sport Association, I welcome the participants and guests of the V International Conference "Sustainability and Legacy in Sport: Challenges and Perspectives" and sincerely rejoice that, given the huge number of challenges facing universities and university sport through the COVID-19 pandemic, found an opportunity for this scientific forum to take place.

In the scientific directions in the program of the scientific event, great attention is paid to solving problems of the social, ecological, economic component as a factors of sustainable development in the sphere of physical culture and sport, actual problems of modern sport, in particular university sports, health-recreational physical activity as a means of providing the human life quality, forming a healthy lifestyle and, as a consequence, a healthy nation, are considered.

I am pleased to note that such diverse topics of the Conference largely coincide with the range of interests and areas of practice of the European University Sports Association. Its activity is aimed at contributing to sustainable development, promoting motivational resources in the student's community for healthy lifestyle, and popularizing physical education and sport among students in Europe and around the world.

I am convinced that the exchange of experience with colleagues and scientific discussions at this Conference will be active and productive.

I sincerely wish all participants of the forum a successful work and new achievements in scientific and sports activities.

Adam ROCZEK

GREETINGS

from the President of International School Sport Federation (ISF)

On behalf of International School Sport Federation, I am pleased to welcome the participants and guests of the V International Conference "Sustainability and Legacy in Sport: Challenges and Perspectives".

The various topical issues to be discussed at the forum cover many important scientific and practical aspects in such areas as current issues of physical culture and sports as well as achieving the goals of sustainable development; Olympic sports and Olympic education in the implementation of sustainable development goals and a number of other areas – all those ones to which much attention is now paid in the world.

Physical culture and sports are important areas of human activity and together with the economy and social sphere they are the main components of sustainable development. School sport is a crucial element for ensuring healthy life style.

I sincerely wish the participants of the International Conference "Sustainability and Legacy in Sport: Challenges and Perspectives" fruitful communication at the meetings of this forum and during further discussion, and I wish all of you to gain creative inspiration in your relentless search for identifying the best ways to research and implement your achievements.

Laurent PETRYNKA

GREETINGS

From Rector of National University of Ukraine on Physical Education and Sport

On behalf of the academic staff of National University of Ukraine on Physical Education and Sport and me personally let me welcome the participants and guests of the V International Conference "Sustainability and Legacy in Sport: Challenges and Perspectives", a representative forum, which has become traditional and is held annually at our higher educational institution.

This year, the forum participants are again deprived of the opportunity to communicate in person at the university conference halls due to quarantine restrictions. However, representatives of scientific and sports community still have the chance to conduct creative discussions online and debate on issues of modern social, environmental, economic challenges within the concept of sustainable development of physical culture and sports; Olympic sports and Olympic education for implementing sustainable development goals; issues of health and recreational physical activity, a healthy lifestyle and a healthy nation; current issues of physical culture and sports as well as the achievement of sustainable development goals.

Scientists of our university are actively and fruitfully working on the development of a scientific platform for sustainable development in physical culture and sports, based on which Ukraine can apply the best international experience for solving social, environmental, economic problems, issues of worldview formation and sports training.

I wish all the participants of the conference to have fruitful creative communication. Good luck in your research work, which should bring significant achievements to the treasury of science and open new ways for implementing them into practice.

Yevgeniy IMAS

NOVEMBER 29, 2021

10⁰⁰–10³⁰ **OFFICIAL OPENING CEREMONY. OFFICIAL GREETINGS**

10³⁰–12³⁰ **PLENARY SESSION**

10³⁰–11⁰⁰ **Yevgeniy Imas** (Ukraine)

HEALTHY YOUTH IS THE PRIDE OF UKRAINE

11⁰⁰–11³⁰ **Wolfgang Bock** (Germany, Portugal)

THE ROLE OF TESTING AND HOUSEHOLD TRANSMISSIONS IN THE COVID-19 PANDEMIC

11³⁰–12³⁰ **Presentation of collective monograph on „E-Sports“**

13⁰⁰–16⁰⁰ **PLENARY SESSIONS BY AREAS**

CURRENT SOCIAL, ENVIRONMENTAL, ECONOMIC ISSUES

IN THE FIELD OF PHYSICAL CULTURE AND SPORT IN THE ASPECT OF SUSTAINABLE DEVELOPMENT CONCEPT

Moderators: **Yevgeniy Imas** (Ukraine), **Olha Borysova** (Ukraine), **Serhii Futorny** (Ukraine)

13⁰⁰–13¹⁵ **Olha Borysova** (Ukraine)

SCIENTIFIC SUPPORT OF NATIONAL TEAMS TRAINING: PROBLEM ISSUES AND SOLUTIONS (BASED ON TENNIS)

13¹⁵–13³⁰ **Ben Gittus** (Scotland, United Kingdom)
