PROGRAMME

21–22 November 2018
Kyiv, Ukraine

GREETINGS

from **ARTUR PALATNYI**
**Chairman of Committee of Verkhovna Rada of Ukraine
on Family, Youth Policy, Sport and Tourism**

I sincerely greet the organizers, participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives» held in the capital of our country in one of its leading and well-known higher educational establishments – the National University of Ukraine on Physical Education and Sport.

The experts from different countries will share their achievements in fundamental and applied scientific researches with colleagues, and the implementation of the results achieved in the practice of sports will be discussed at the forum.

All this in a complex combination helps to solve the problems of purely sports orientation and develop environmental programs for preventing environmental pollution, improve the efficiency of recreational factors of sport and motor activity, to attract young people to this, to form constant interest in the Olympic movement through the system of Olympic education of the younger generation.

I hope that the decisions and recommendations formulated on the basis of the professional discussion of topical issues in the areas reflected in the program of this forum will also be able to find their way into the legislative activity of the Ukrainian parliament.

On behalf of the Committee of Verkhovna Rada of Ukraine on Family, Youth Policy, Sport and Tourism and me personally, I sincerely wish the participants of the Conference to lead active and fruitful work, to come to new achievements in scientific, educational and other activities aimed at the development of physical culture and sport.

Artur PALATNYI

GREETINGS

FROM **LILIA HRYNEVYCH**
Minister of Ukraine on Education and Science

I sincerely greet all the participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives» at the National University of Ukraine on Physical Education and Sport.

It is pleasant to note that the Conference program includes not only various aspects of sports orientation. But it also highlights the role of motor activity and other forms of physical education as a crucial factor in strengthening the health of young people, as well as the Olympic education issues as a vector of value orientations for the younger generation, which are important in the process of the healthy lifestyle formation and promotion.

The Ministry of Education and Science of Ukraine hopes that the participants of the Conference, specialists from different countries, will work out solutions, allowing to implement the fundamental and applied scientific research results in the best possible way on the basis of current issues discussions and fruitful exchange of ideas.

I wish the organizers and participants of the Conference to have effective and creative work, pleasant communication, inexhaustible energy and new promising projects in their further scientific activity!

Lilia HRYNEVYCH

GREETINGS

from **IGOR ZHDANOV**
Minister of Ukraine on Youth and Sport

Dear friends!

I sincerely congratulate you on the opening of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives», hosted by the National University of Ukraine on Physical Education and Sport.

The rapid development of modern sports dictates the need to provide a proper scientific support, to consolidate the potential of governing authorities, scientific institutions and organizations, system and professional solutions, concerning the development of innovative technologies. And they will become a big stride toward understanding the importance of physical education and sport for human health and winning the highest awards at the international competitions.

I believe that your Conference is a strong and urgent response for contemporary challenges. We are dealing with such a complex topic, which always was and will remain interesting, popular and inexhaustible for research and inventions.

Organizing such forums, which unite professionals in the field of sustainable development and legacy in sport, is a consolidating stimulus for the effective solutions development, aimed at an efficient national policy in the sphere of physical education and sport.

I wish all the participants of the Conference the fruitful work, mutual understanding and every success in their professional activities.

Igor ZHDANOV

GREETINGS

from **SERGIY BUBKA**
President of the National Olympic Committee of Ukraine

On behalf of the Olympic family and me, I would like to welcome the participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives» at the National University of Ukraine on Physical Education and Sport.

The various current topics that will be considered at this forum include many important scientific and practical aspects in such areas as: the history and current situation of the Olympic sport and the problems of its sustainable development, the environment of sport, Olympic education and a number of other branches, which are now given much attention in Ukraine and globally.

I would like to remind that in the system of the International Olympic Committee the IOC Commission «Sustainable Development and Heritage» is actively functioning as well as the NOC Commission «Sport and Environment» is functioning in the structure of the National Olympic Committee of Ukraine.

In its every day activity, the IOC is constantly striving to ensure that the Olympics and the Winter Olympics were prepared by their Organizing Committees and conducted with a careful attitude to the environment and the exploitation of Olympic and other sports facilities did not harm the environment.

At the same time, the National Olympic Committee of Ukraine, not being limited to solve urgent sports problems, fully supports the Olympic education and educational projects in this and related fields and various system measures aimed at increasing the efficiency of young generation education on the Olympic ideals and the principles of Olympism.

I sincerely wish all the participants of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives» to complete fruitful communication at the meetings and in informal communication, as well as to find creative approach in search of determining the most optimal ways in scientific research and in the practical realization of their achievements.

Serhiy BUBKA

GREETINGS

from VASYL KREMEN

President of the National Academy of Pedagogical Sciences of Ukraine

On behalf of the National Academy of Pedagogical Sciences of Ukraine, the Institution that facilitates the organization of this forum in the capital of our country, I would like to congratulate the participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives».

I would like to emphasize that this Conference, held by the National University of Ukraine on Physical Education and Sport, focuses its attention on such important issues as: objectives and problems of modern sports sustainability, environment, movement activity as the basis of high quality human life, strategy of the education development, the main factor of sport and physical education sustainability and Olympic education and the main vector of younger generation values development.

In the research and other life spheres all these problems are closely interconnected with the components of human life, human health, life ecology and they can stimulate directly and indirectly the human and social development, endeavor people to environment-friendly culture, form their civil ecological culture, as well as decide the objectives of children's and youth upbringing.

I wish all participants and the organizers of this international Conference prolific work during the forum, constructive dialogue and creative achievements in fundamental and applied researches, inexhaustible research resource, professional dignity and intellectual desire to continue search and discover.

A handwritten signature in black ink, appearing to be 'V. Kremen', written over a large, faint watermark of the National University of Ukraine on Physical Education and Sport logo.

Vasyl KREMEN

GREETINGS

from WŁODZIMIERZ STAROSTA

President of International Association of Sport Kinetics

Dear Ladies and Gentlemen!

I sincerely express my gratitude for the invitation to participate in the Conference, which was founded in the leading higher educational institution – the National University of Ukraine on Physical Education and Sport and will be held this year under the patronage of the International Association of Sport Kinetics (IASK). The Association, world-known at the international arena, was established 28 years ago and has more than 500 members from 69 countries of the world. There are famous members from Ukraine forming the National Section of IASK Professors.

The members of the IASK are happy that finally we have made a scientific cooperation with your famous National University of Ukraine on Physical Education and Sport in Kyiv. I hope that our cooperation will be very interesting and fruitful for both sides. The most important of our cooperation will be the year of 2020 in which we will together organize the 15th Sport Kinetics Conference in Kyiv and celebrate the Jubilee – 30 years of establishing International Association of Sport Kinetics.

I wish you fruitful work on the Conference and meet many new friends.

Włodzimierz STAROSTA

GREETINGS

from Maria Bulatova
President of the Olympic Academy of Ukraine

On behalf of the Olympic Academy of Ukraine – one of the co-organizers of this representative forum, and on my own, it is a great pleasure for me to greet sincerely the participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives».

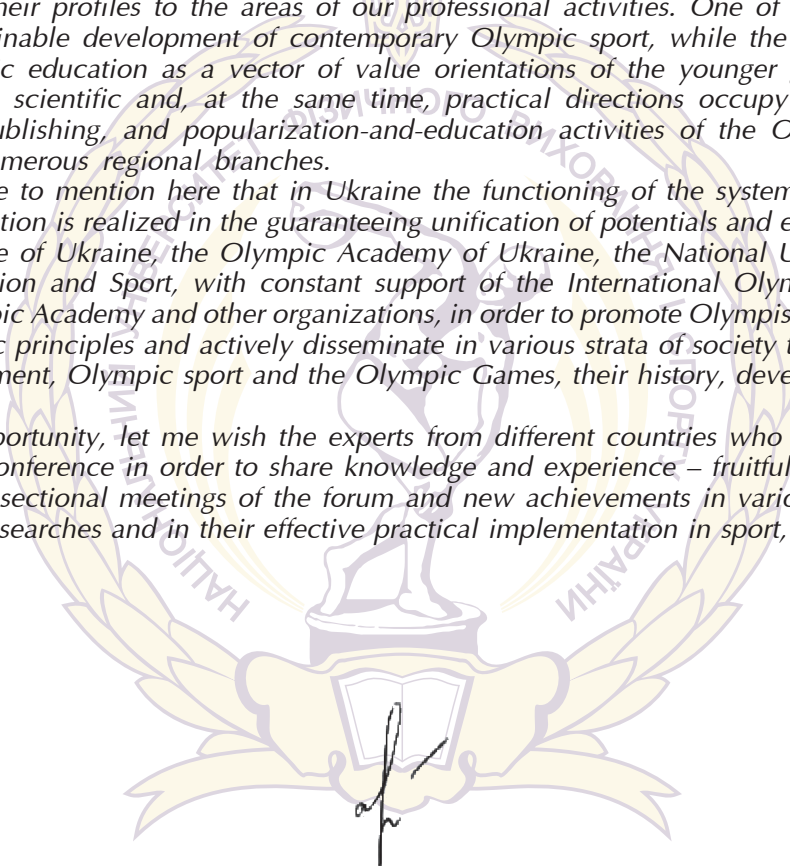

Two of five scientific directions on the program of the Conference are of a special interest for the Olympic Academy of Ukraine and International Olympic Studies and Education Centre which operates on the base of Department for History and Theory of

Olympic Sports at the National University of Ukraine on Physical Education and Sport – the directions that are close by their profiles to the areas of our professional activities. One of them deals with the challenges of sustainable development of contemporary Olympic sport, while the other is focused on the role of Olympic education as a vector of value orientations of the younger generation.

After all, these scientific and, at the same time, practical directions occupy an important place in the research, publishing, and popularization-and-education activities of the Olympic Academy of Ukraine and its numerous regional branches.

It is appropriate to mention here that in Ukraine the functioning of the system of Olympic studies and Olympic education is realized in the guaranteeing unification of potentials and efforts of the National Olympic Committee of Ukraine, the Olympic Academy of Ukraine, the National University of Ukraine on Physical Education and Sport, with constant support of the International Olympic Committee, the International Olympic Academy and other organizations, in order to promote Olympism, its spiritual ideals, values and Olympic principles and actively disseminate in various strata of society the knowledge about the Olympic movement, Olympic sport and the Olympic Games, their history, development and current issues.

Taking this opportunity, let me wish the experts from different countries who gathered in Kyiv for this International Conference in order to share knowledge and experience – fruitful creative discussions at the plenary and sectional meetings of the forum and new achievements in various fundamental and applied scientific researches and in their effective practical implementation in sport, education and other areas.

Maria BULATOVA

GREETINGS

from YEVGENIY IMAS

Rector of the National University of Ukraine on Physical Education and Sport

On behalf of the National University of Ukraine on Physical Education and Sport, I kindly greet the participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives» – a representative forum that has already become traditional and is held annually on the basis of our higher educational establishment.

I would like to note that among the scientific directions of this Conference one of the leading goals is to provide sustainable development in sport, which is closely linked to the issue of ecology in sport, as well as the opportunities and challenges that exist in this area.

It is worth mentioning that in the mid-1990s, the International Olympic Committee formed the IOC Commission on Sustainable Development and Legacy; they concluded the agreement on joint activities with the United Nations Environment Program and later on introduced in the Olympic Charter a new provision that declared environmental protection to be the third – together with sports and culture – integral part of Olympism.

Nowadays similar topical trends are being successfully implemented in our country – particularly through the activities of the NOC of Ukraine Commission on Sport and Environment formed by the National Olympic Committee of Ukraine several years ago.

Therefore, I, being not only the Rector of the NUUPES, but also the Chairman of the NOC of Ukraine Commission on Sport and Environment, would like to emphasize that the University, in close cooperation with the NOC, as well as with the interested ministries and departments, has initiated and implemented a number of actions, aimed at developing the concept of sustainable development in sport sphere. The scientists of our higher educational establishment are actively and fruitfully working on the creation of a scientific platform for the implementation of sustainable development concept in physical culture and sport, based on which the best international experience in solving environmental problems and introducing environmental projects in the field of sport can be used in Ukrainian sport sphere.

I hope that the participants and guests of the International Conference «Sustainability and Legacy in Sport: Challenges and Perspectives» will not only be limited to the exchange of scientific and practical experience, as well as the results of fundamental and applied researches during the discussions at the plenary and sectional meetings of this forum, but will also find time to get familiar with a multi-faceted activity of our University.

I sincerely wish the participants of the Conference fruitful work, interesting and useful discussions with their colleagues and new creative achievements.

A handwritten signature in black ink, appearing to read 'E. Imas', with a horizontal line underneath.

Yevgeniy IMAS

21 NOVEMBER

- 9⁰⁰–10⁰⁰ **REGISTRATION OF CONFERENCE PARTICIPANTS**
(*Building 1, entrance-hall*)
- 10⁰⁰–11⁰⁰ **OFFICIAL OPENING CEREMONY OF THE CONFERENCE. OFFICIAL GREETINGS**
