

DEPARTMENT OF INNOVATIVE AND INFORMATION TECHNOLOGIES IN PHYSICAL CULTURE AND SPORT

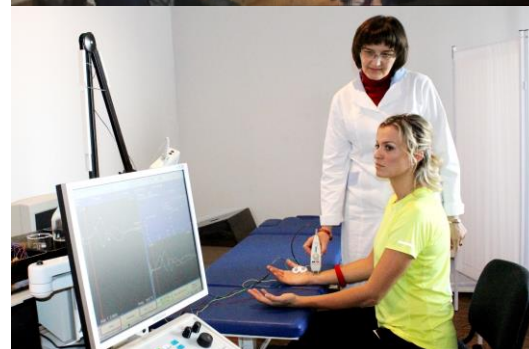

The activity of the department is aimed at training specialists capable of identifying and effectively solving complex specialized problems and practical problems of innovative and scientific character in physical culture and sports. Implementation of innovative technologies in education for modern society is of practical importance. It relates to its development and perspectives that are associated with so-called "high technologies."

The Department has a highly-qualified staff that teaches contemporary disciplines related to computer technologies, innovations in physical culture and sports, and informatization of society..

The department is headed by Professor, Doctor of Physical Education and Sports, Honored Worker of Physical Culture and Sport Shynkaruk Oksana Anatoliivna.

There are three computer classes, the laboratory of the theory and methodology of sports training and reserve capabilities of athletes of the Research Institute of NUPhESU which are the practical base of the Department.

From 2019-2020 academic year, the Department provides training on specialization "KiberSport (eSport)" at master's level of higher education within the specialty 017 Physical Culture and Sport.
